ART 1301 Course Description: Art Appreciation is a study of the visual arts for non-art majors emphasizing an investigation of the nature of art – past and present, in western and non-western cultures. Students will learn to recognize art not only as the expression of individual artists but also as the reflection of wider cultural identities (religious, political and social). To achieve this goal, students will learn to identify the basic formal elements underlying all art forms, the processes by which visual art is created, and the many ways of “seeing” and “interpreting” works of art.

- Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination.
- Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.
